REPORT:

- **Course Name:** Web Technology of Computer
- **Date of Commencement:** 17/03/2025
- **Course Coordinator:** Dr. Sadananda Chatterjee, Assistant Professor in Statistics
- **Number of Male Students:** 51
- **Number of Female Students:** 63
- **Final Examination Appeared:** 114 students
- **Course Attendance:** Maintained above 50% throughout

The Add-on Course on HTML and CSS was successfully conducted for students across various departments. The course aimed to provide foundational knowledge and hands-on experience in web development using HTML and CSS.

While the total enrollment was significantly high, a total of 114 students appeared for the final examination, which was held at the end of the course to assess the students' understanding and practical skills. The performance in the exam was highly encouraging, with most of the students scoring over 40 out of 50 marks.

The attendance throughout the course remained above 50%, indicating steady student engagement and interest. Nearly all students who attended the course were also present for the final assessment.

Student feedback was overwhelmingly positive, with many expressing that the course helped them gain a clearer and more practical understanding of web development concepts. Between the two components – HTML and CSS – the HTML module received more favorable feedback, with students particularly appreciating its simplicity, clarity, and relevance. CSS, while still well-received, was noted to be slightly more challenging by comparison.

In conclusion, the course proved to be a valuable learning experience for the participants and has effectively contributed to their technical skill development.
