## Introduction

# 1 SCHEME RATIONALE

## 1.1 Child marriage - a concern for West Bengal

Under the Prohibition of Child Marriage Act, 2006 (PCMA), 18 is the legal age of marriage for girls, and 21 for boys in India. Despite several years of this Act being in existence, the early marriage of children continues to be practiced in West Bengal.

- According to DLHS -3, 2007-08, the state ranked fifth highest in the country when it came to the prevalence of child marriage, with almost every second girl a child bride (54.7%). Although more pervasive in rural areas, statistics revealed that even in non-slum areas of Kolkata, more than a quarter of girls are married before they reach adulthood.
- According to DLHS-4 2012-13, the percentage of girls aged 18 years currently getting married before 18 years was 32.1% (36.3% in rural areas, and 21.3% in urban areas). Bankura, Murshidabad, Purba Midnapore, Bardhaman, Birbhum, Dakshin Dinajpur, Cooch Behar, Nadia and Purulia were identified as the districts with the highest incidence of child marriage in the state.
- According to the Census 2011, the percentage of women married below the age of 18 is almost 40.24% of its 27.45 million ever-married women, as compared to the national average of 30.21%
- As per Rapid Survey On Children (2013-2014), 44.47% of women aged 20-24 were married before age 18.

### 1.1.1 Negative Impact of child marriage

Child marriage is a gendered practice, affecting far more girls than boys. It is perhaps the most prevalent form of sexual abuse of minor girls, and has a negative impact on their health, leaves them financially and socially disempowered, and vulnerable to child labour, trafficking and other forms of exploitation. Child marriages and low education levels perpetuate generational cycles of ill-health, illiteracy and poverty, and contribute to the feminization of poverty.

### 1.1.2 Child marriage and female school dropout

Child marriage leads to girls dropping out of school, which limits their scope of future development. In West Bengal, attendance of girls in school drops from 85% in the age-group 6-10 years to a mere 33% in the age group 15-17 years. (NFHS 3, 2005-06). After the implementation of *Sarva Shiksha Abhiyan* towards universalization of elementary education, significant progress has been noticed among girls, both in terms of enrolment and completion rate at the elementary level.

However, the transition from elementary to secondary school levels remains a concern. The Selected Educational Statistics (2010-11) published by MoHRD, Government of India shows that for the state of West Bengal, the Gross Enrollment Ratio (GER) for girls gradually decrease from 88% at elementary level (VI-VIII) to 59% at high school level (IX-X) and 33.3% at higher secondary level (XI-XII). It means that more girls are leaving school in the adolescent age group. The drop-out rates between Class I-X was found to be as high as 47.9% by the same report.

According to the DISE Flash Statistics 2013-14, while the dropout rate among adolescent boys (6.3%) at the upper primary level is more than that of the girls (4.2%), at the secondary and higher secondary levels more adolescent girls drop out of school. However, at the secondary level this trend is reversed, with nearly of 15% of adolescent boys and 19.4 % of adolescent girls in West Bengal dropping out of school.

Secondary education is not free, and many impoverished parents, failing to see the economic rationale for investing in their daughters education, marry them off at this age in the belief that this will enhance the girls and the families' security. This step however, condemns the girls to a life of financial and social insecurity. Field studies show that most women have to take up some economic activity in later years, and that their lack of qualifications and work experience makes them ill-equipped for the labour market, and therefore susceptible to poverty and exploitation throughout life. As a result, poverty, one of the factors that fuels child marriage, in turn perpetuates the feminization of poverty.

### 1.1.3 Child and maternal ill- health and mortality

Child marriage is one of the factors which is limiting the progress of maternal and child health and improvements in the nutritional status of children in West Bengal. Child marriages result in early pregnancies, which in turn lead to high maternal and infant deaths, and are also a leading cause for malnutrition among children.

Child marriages result in girls becoming mothers at an age when they are not out of childhood themselves: of all teenage girls aged 15 – 19 in West Bengal, **one-fourth** are already mothers or pregnant at the time of the survey, a percentage that is much higher than the national average (16%) and also higher than all other Indian states except Jharkhand (NFHS-3 2005-06).

### 1.1.4 Child marriage and trafficking

Child marriage is one of the lures used by human exploitation rackets to entice poor parents to part with young girls. Although it is not possible to disaggregate data on children who have gone missing because of child marriages arranged by fraudulent means, it is significant to note that the districts which rank the highest amongst all districts for child marriages, namely, Murshidabad and Malda, are also considered the most vulnerable to trafficking.

## 1.2 Challenges in child marriage prevention

After the enactment of the PCMA 2006, the Department of Women Development and Social Welfare and Child Development (DWD) implemented anti-child marriage campaigns spreading the message of prevention, and endorsing enforcement of the law and its penal provisions for adults aiding and abetting child marriage.

However it quickly became evident that legal prohibition and social messaging are largely ineffective in addressing child marriage. For one, India's multiplicity of formal and religious laws complicates the issue of what constitutes the 'appropriate' age of marriage for girls. Secondly, the practice is ascribed to time-honoured tradition and is justified from a patriarchal perspective as essential for protection of girls from the 'evils of society'. Therefore eradicating it requires tangible drivers of social change that can transform victims, made vulnerable by their age and gender, into actors determining their own lives.

### 1.3 Scheme Design

Kanyashree Prakalpa is a Conditional Cash Transfer (CCT) Scheme that concentrates on girls currently most at-risk for dropping out of school and for child marriage: adolescents between the ages of 13 and 18. The CCT component of the scheme is supported by a multipronged communication strategy addressing key stakeholders' attitudes and practices towards female adolescents in families and communities and other key stakeholders from state to institution levels.

#### 1.3.1 Conditional Cash Transfers

The scheme has two benefit components. The first is a cash benefit to be paid annually to the girls in the target age group for every year that they remain in education, provided they are unmarried at the time. The second benefit is a one-time grant to be paid to a girl between the age of 18 and 19, provided that she is enrolled in an educational institution and is unmarried at that time.

The term 'education' encompasses secondary, higher secondary and higher education, as well as the various vocational, technical and sports courses available for this age group. Girls must be enrolled and regularly attending educational institutions located in West Bengal that are recognized by the government.

To ensure an equity focus, the scheme is open only to girls from families below a certain income ceiling. For girls with special needs, orphans and for girls currently residing in registered Juvenile Justice Homes, this criterion is waived.

#### Features of Conditional Cash Transfers

By making financial benefits conditional upon the receiver's actions, CCT programs negotiate a behavioural change in an area of developmental concern. In this case, the behavioural areas of concern are the high incidence of child marriage and the low attendance and retention of adolescent girls in education. Kanyashree Prakalpa therefore seeks to empower girls, specifically girls from socio-economically disadvantaged families by:

- Incentivizing them to continue in education for a longer period of time, and complete secondary, higher secondary, higher education, or equivalent in technical, vocational or sports streams, thereby giving them a better footing in both the economic and social spheres.
- Disincentivising marriage till at least the age of 18, the legal age of marriage, thereby reducing the risks of early pregnancies, associated risks of maternal and child mortality, and other debilitating health conditions, including those of malnutrition.
- The Scheme lays the foundation for the financial inclusion of girls by mandating that its financial benefits are paid into bank accounts where the Kanyashree beneficiary herself is the account holder.

#### 1.3.2 Communication Strategy

The Scheme recognizes that while conditional cash transfers address the immediate vulnerability of adolescent girls by keeping them in the protected environs of educational institutions, they will not necessarily change the attitudes of parents, extended families and communities towards girl

children. And unless these attitudes shift, girls who complete their education will return to an environment which still largely associates their lives with the domestic domain, without allowing them to access facets of life beyond family duties, and especially not as economically productive providers for themselves and their families.

To ensure that the scheme's conditional cash transfers go beyond a mere compliance of the PCMA 2006, the Scheme has a communication strategy based on public advocacy and behavior change communication methods designed to bring about changes in attitudes, perceptions and behavior of adolescent girls, their families and other significant stakeholders in their lives.

The Scheme's Communication Strategy is designed to create influence on three levels:

- The cultural-environmental level where, through institutional and mass media, society at large is informed of the negative impact of child marriage, the law against child marriage, the options offered by Kanyashree Prakalpa and the objectives of the Scheme.
- Inter-personal social influence level, where families, peer groups, community and other immediate social networks that support the education of young girls with the long-term objective of their economic independence, rather than perpetuate the expectation of early marriage for them.
- Intra-Personal Influences – create a sense of self, personal capacity and well-being in adolescent girls

### 1.3.3 Kanyashree Plus

The impact of the Scheme is proposed to be further strengthened through Kanyashree Plus, its graduation strategy. Kanyashree Plus is being designed to ensure stronger inclusion of out-of-school adolescent girls in the Kanyashree CCT component, and facilitation of beneficiaries' transition from secondary education into tertiary education so that they may graduate into sustainable livelihoods and employment. Under consideration are the following activities:

1. Reintegration of out-of-school girls into education through non-formal education or bridge education and livelihoods support
2. Career counseling and coaching to girls enrolled in Kanyashree starting at age 16
3. Life skills education (consisting of rights education, soft skills development, health and nutrition and financial literacy) delivered to girls
4. Facilitate each Kanyashree beneficiary's access to tertiary education and employment/business services, enabled by performance-based contracts with qualified providers
5. Conduct outreach and public education activities to parents, caregivers and young men to generate support of young women's socio-economic empowerment

## 1.4 Coverage

Launched on October 1, 2013, Kanyashree Prakalpa is applicable to the State of West Bengal only. Girls must be resident of the state, and be studying in institutions that are registered in West Bengal and recognized by the government.

## 5 SINGLE-WINDOW SERVICE DELIVERY THROUGH EDUCATIONAL INSTITUTIONS

All first-time Kanyashree applicants, whether applying for the Annual Scholarship (K1) or for the One-Time Grant (K2), will be provided pre-printed forms by the educational institution they are enrolled in. For convenience, K1 forms are printed on light green paper (See Appendix 1), and K2 forms are printed on light blue paper (See Appendix 2). Beneficiaries will have to fill in their application forms and hand them over, along with necessary certifications to designated persons in their educational institutions. As per the West Bengal Public Services Delivery Act, 2013 (WBPSDA 2013), HOIs will provide acknowledgment receipt (marked with their Application Form No.) to the applicants.

All application forms received by the educational institutions shall be immediately entered into the portal along with scanned bank details. Only in cases where the educational institutions are unable to process applications because of lack of computer facilities, application forms are sent for data-entry to the appropriate block office / sub-divisional office or to the nearest CLRC.

Once an application has been successfully uploaded, the portal creates a unique Kanyashree Identification Number (Kanyashree ID) and a Kanyashree Identity Card, which must be handed over to the beneficiary. Until generation of the Kanyashree ID, the Form Number shall serve as the applicant's identification.

Once uploaded, applications and certifications become visible for scrutiny and subsequently sanction and payment through direct bank transfer. There is no physical movement of paper forms, and no manual generation of scrutiny or sanction lists. These are entirely automated, and applications become visible to the appropriate officer / unit (user) depending on the user's authorization level. Wherever possible, batch processing of applications has been implemented, without compromising on data or process integrity.

Each pre-printed form has its own unique identification number (Form Number). District, sub-divisional and block units shall maintain a track of application forms distributed to educational institutions in their respective administrative domains, and check the portal to ensure that beneficiaries' applications are being uploaded in a timely manner.

All sanctioned and rejected application forms are retained for sample verifications with the institutions or in offices of BDOs (for rural areas), Sub Divisional Officers (for urban areas) and Director, Social Welfare (Kolkata).

Renewal of the Annual Scholarships are to be processed in bulk by Heads of Institutions, with beneficiaries only providing certificates of eligibility. For girls up-grading from the annual scholarship to the one-time grant, application forms with details of the applicant will be generated on-demand on the portal by the educational institution. Once filled in, these, along with necessary certificates, will be handed back to the Heads of Institutions for further processing.

**For complete details of the process, see Chapter on Processing of Conditional Cash Transfers.**

**Sub: Security issues related to Kanyashree Prakalpa**

Sir/Madam,

The following issues are of serious concern to the integrity and security of Kanyashree Prakalpa's implementation and should be addressed immediately:

1. User Ids and Passwords to the Kanyashree Portal are critical to the security of the portal, and it is essential that:
  - a. User Ids and passwords should only be known to authorized persons at each level i.e., educational institutions and key administrative officers working directly with Kanyashree Prakalpa.
  - b. The secrecy of a password is sacrosanct and should not be shared under any circumstances.
  - c. Persons with User Ids should change their passwords regularly and should follow the security norm for forming passwords.
2. Random checking of uploaded applications reveals that for a large number of applications, scanned content, especially photographs of beneficiaries and signatures of certification are not clear. Photographs and other documents must be scanned in such a manner so that the identity of the beneficiary can be verified by sight and signatories identified by their signatures.
3. At the time of verifying, scrutinizing and sanctioning of applications, the person conducting the process shall exercise due diligence in studying each detail, and verifying the integrity of application before recommending it for further processing.
4. 5% random physical verification of applicants should be carried out on a regular basis.

Any kind of fault in processing of data to be taken up by the district authority immediately and steps should be taken for rectification.

Yours faithfully,

  
( Roshni Sen )
