Mechanism (as per University rules) finalized at departmental meetings and notification to students done

Duty allotment of teachers and non-teaching staff for examination to be held centrally

Modes of assessment decided in form of written tests, assignments, seminars, practical assessments etc

Evaluation and submission of marks by examiners to HoD

Preparation of award list by HoD and uploading at the University portal after getting proper notification

One time chance allowed to absentee to sit for examination within 5 days considering emergency ground, asking application letter with supporting documents for submission

Orientation of Marks in the Examinations

Summary of the mechanism of External Examination prevailing at the Institution

External examination

The conduction of both year-end external examination under the 1+1+1 system (till 2018-19 including backlog) as well as semester end external/internal examinations from 2017-18 onwards) commences with the notification done by the University. Accordingly, internal meeting is held by the Examination Sub-Committee and the Academic Sub-Committee jointly to select the officer-in-charge who decides on the modus operandi of the examination. The external examination comprises of only written components for humanities while lab based subjects have both written and practical components. The officer- in-charge and his team finalizes the examination procedure, which includes allotment of invigilation duties, making seating arrangements, deciding the rules to be followed during examination, packaging of answer scripts and dispatching them to the police station for further collection to be done by university officials.

However, protocol of practical examination is decided by the concerned department in accordance with the university guidelines. The sequential process of practical include making prior preparations and sample procurement, question paper setting, decision regarding experimental set up, spot assessment, answer script evaluation, preparation of marks sheets and uploading them on the specific portal according to University notification.

Summary of the mechanism of Internal Examination prevailing at the Institution

Internal examination

Alternatively, time bound completion of internal examination solely depends on the discretion of the respective departments who are giving the liberty to conduct the tests using various modes such as written class tests, home assignments, spot assignments, seminars, practical demonstrations etc. Post examination, the evaluations are done by respective departmental teachers, marks are submitted to departmental heads who submit the marks to the University marks' submission portal. Single chance is provided to absentee students to appear for a retest with legitimate grounds for reconsideration within 5 days of completion of the scheduled exam. After completion of internal examination and submission of marks, the decision regarding showing of evaluated answer scripts to the students followed by discussion on implementing necessary corrective measures of improvements of different group of learners are done and action taken by the respective departments. This is to note here that the Department of Mathematics often take preparatory test for weak learners to test that whether they are ready for the Internal Assessment or not.

Internal Assessment Marks Uploading Portal of University

Examination Related Grievance Redressal system at the Institution

All grievances of external examination related to issues such as delay in issuance of admit cards, absence and/or information error in admit cards and anomaly in marking score are forwarded to University redressal cell which are addressed as per University rules. Right to Information Act (RTI) enables the students to demand for the scrutiny and full information on their marking pattern within the stipulated time frame as stated in the University website after the declaration of results.

At the institutional level, usually the departmental faculty responds to students' legitimate complaints about grades received and internal evaluations. Students discuss the assessed papers from internal exams, which include class exams, assignments, and projects, and recommendations for improvement are made.

Students' Feedback regarding Current Examination System Obtained from Course Attainment Survey (Arranged by IQAC)

Section 1 of 2

Course Attainment Survey (for Students)
